

Item Code: AGM 545913034  
EAN: 8717101000311

## Description

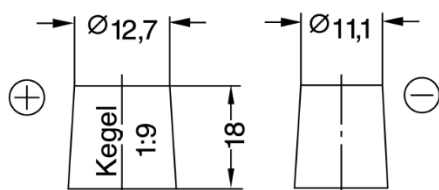

Dynac Start-Stop AGM batteries use advanced AGM technology to deliver high cranking power and exceptional performance. They provide three times greater cycle resistance than standard batteries, making them the ideal choice for vehicles with multiple electrical consumers and advanced start-stop systems, including regenerative braking with energy recovery.

## Specifications

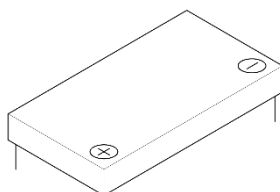

|                            |                     |                         |
|----------------------------|---------------------|-------------------------|
| Nominal Voltage            | 12                  |                         |
| Rated Capacity (25 °C)     | 45.00 Ah            | 20hr, 2.25A, 1.75V/cell |
| Cold Cranking Current (EN) | 340 A               |                         |
| Technology                 | Flooded Calcium AGM |                         |
| Separator                  | Glass Mat           |                         |
| Container Material         | Polypropylene       |                         |
| Box Type                   | B24                 |                         |
| Approx. Weight             | 13.00 Kg (28.66lbs) |                         |
| Layout                     | 1                   |                         |
| Terminal                   | 3                   |                         |
| Hold-down                  | -                   |                         |
| Dimensions                 | Length              | 236 mm                  |
|                            | Width               | 125 mm                  |
|                            | Height              | 200 mm                  |
|                            | Total Height        | 224 mm                  |
