

### Description

Dynac Start-Stop AGM is a range of start-stop batteries with AGM technology delivering the highest cranking amps and extreme performance. This battery offers a 3 times greater cycle resistance compared to a standard battery. This battery is the perfect choice for vehicles equipped with multiple power consumers and advanced start-stop systems suitable for regenerative braking with energy recovery.

### Performance

|                 |                         |
|-----------------|-------------------------|
| Nominal Voltage | 12                      |
| Capacity        | 80Ah (20hr, 1.75V/cell) |
| CCA EN          | 800                     |

### Dimensions / Casing / Weight

|                       |                      |
|-----------------------|----------------------|
| Box Type              | L4                   |
| Dimensions            | Length: 315 mm       |
|                       | Width: 175 mm        |
|                       | Height: 190 mm       |
|                       | Total Height: 190 mm |
| Net Weight            | 23.3 Kg              |
| Material Casing / Lid | Polypropylene        |

### Technical Characteristics

|           |           |
|-----------|-----------|
| Separator | Glass Mat |
|-----------|-----------|

### Features

- Absorbent Glass Mat technology
- Highest starting power, extreme performance
- 3 times longer cycle life compared to conventional batteries
- Ideal for micro hybrid & mild hybrid (MHEV) with advanced start-stop systems
- 100% maintenance free, leak-proof, save handling
- Eco-friendly product and 99% recyclable

### Layout

### Terminal

### Hold-down

### Battery Classifications as per EN 50342-6

| Water Consumption | Charge Retention | Vibration Resistance | Endurance Level | Micro-Cycle Performance |
|-------------------|------------------|----------------------|-----------------|-------------------------|
| W5                | C2               | V3                   | -               | M3                      |
