

Description

Modern / start-stop vehicles may be equipped with a secondary battery alongside the primary starter battery. This auxiliary battery can be used as a safety back-up to support the main battery when required or to supply power for specific electrical systems all of the time. Start-stop AUX with AGM technology is factory activated, completely sealed, 100% maintenance free, and leak-proof which makes it safe to use. Start-Stop AUX is the ideal replacement for the original support batteries in Volvo (AUX9) and Audi, BMW, and Mercedes-Benz (AUX14).

Performance

Nominal Voltage	12
Capacity	13Ah (20hr, 1.75V/cell)
CCA EN	200

Dimensions / Casing / Weight

Box Type	AUX
Dimensions	Length: 150 mm
	Width: 87 mm
	Height: 146 mm
	Total Height: 146 mm
Net Weight	4.7 Kg
Acid Volume	-
Material Casing / Lid	Polypropylene

Technical Characteristics

Technology	Flooded Calcium
Separator	Glass Mat

Features

- Absorbent Glass Mat technology
- Reliable support battery
- Factory activated, ready to use!
- 100% maintenance free, leak-proof, save handling
- Very low self-discharge
- Eco-friendly product and 99% recyclable
