Description

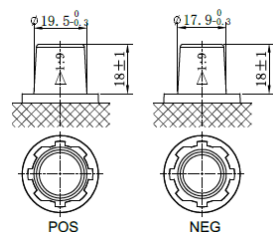

Dynac Marine is a starter battery with flooded calcium technology, designed for reliable performance on the water. This sealed, maintenance-free battery features V3 vibration resistance and is spill-proof for safe use. In addition to engine starting, Dynac Marine is ideal for marine and leisure applications with light power consumers, such as bow and interior lighting, thrusters, radios, depth gauges and other on-board equipment. The range is available in capacities from 120Ah to 225Ah.
