

Item Code: GB 110  
EAN: 8717101021422

## Description

Dynac Gel is a gel battery which provides energy for deep cycle applications. These gel batteries are completely sealed, 100% maintenance free, leak-proof and have low self-discharge. Dynac Gel offers long service life, excellent vibrations resistance and is resistant to deep discharges up to 75-80%. Ideal for aerial platforms, scissor lifts, forklifts, sweepers, golf carts, electric wheelchairs, motorhomes, caravans and boats. Available in a range of 6V/12V batteries from 30Ah to 210Ah.

## Specifications

|                        |                              |                         |
|------------------------|------------------------------|-------------------------|
| Nominal Voltage        | 12                           |                         |
| Rated Capacity (25 °C) | 110.00 Ah                    | 20hr, 5.50A, 1.75V/cell |
| Cold Cranking Amps     | 760 A                        |                         |
| Technology             | GEL                          |                         |
| Separator              | Microporous Pocket Separator |                         |
| Container Material     | Polypropylene                |                         |
| Approx. Weight         | 39.00 Kg (85.98lbs)          |                         |
| Layout                 | 2                            |                         |
| Terminal               | 1                            |                         |
| Hold-down              | -                            |                         |
| Dimensions             | Length                       | 286 mm                  |
|                        | Width                        | 269 mm                  |
|                        | Height                       | 230 mm                  |
|                        | Total Height                 | 230 mm                  |
