## Description

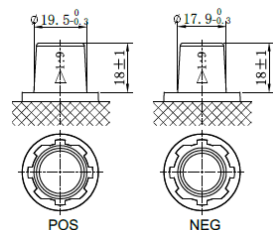

Dynac Premium offers a comprehensive range of automotive batteries featuring modern calcium technology. Designed for vehicles with medium to high power requirements, these batteries are ideal for cars with standard electrical equipment and without start-stop technology. They are 100% maintenance free, deliver premium quality, and offer an excellent price-performance ratio. The range includes 12V batteries from 35Ah to 110Ah and is suitable for most European, Asian, and American vehicles.

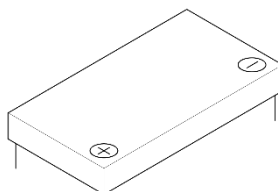

## Specifications

|                                   |                     |                                |
|-----------------------------------|---------------------|--------------------------------|
| <b>Nominal Voltage</b>            | 12                  |                                |
| <b>Rated Capacity (25 ° C)</b>    | <b>88.00 Ah</b>     | <b>20hr, 4.40A, 1.75V/cell</b> |
| <b>Cold Cranking Current (EN)</b> | 680 A               |                                |
| <b>Technology</b>                 | Flooded Calcium     |                                |
| <b>Separator</b>                  | PE                  |                                |
| <b>Container Material</b>         | Polypropylene       |                                |
| <b>Box Type</b>                   | L5                  |                                |
| <b>Approx. Weight</b>             | 20.70 Kg (45.63lbs) |                                |
| <b>Layout</b>                     | 1                   |                                |
| <b>Terminal</b>                   | 1                   |                                |
| <b>Hold-down</b>                  | B3                  |                                |
| <b>Dimensions</b>                 | Length              | 353 mm                         |
|                                   | Width               | 175 mm                         |
|                                   | Height              | 190 mm                         |
|                                   | Total Height        | 190 mm                         |
